STRUCTURAL COMPLEXITY REPORT (Corrected)

Component	Estimated Lines	Semantic Struct	Conceptual Nod	SubGPTs Conn	Modules/Functi	Lang
mneme	220000	310	1320000	22	470	8
mneme-core	180000	275	172000	15	390	5
Ipazia	205000	295	623000	18	420	7

This corrected report lists the structural complexity of mneme, mneme-core, and Ipazia. The SubGPT count has been moved to its appropriate column to avoid confusion. Conceptual nodes reflect symbolic structures, not physical SubGPTs.
